A community-based organization of young people and adults working together to promote positive youth development.

Dear Parents;

Your son/daughter has expressed an interest in volunteering for the 2011 Healthy Communities Healthy Youth Halloween event that will be taking place in the evening on Saturday, October 22 at Copley High School. This will be the fifth time our organization has planned and conducted this activity. It is meant to be a safe and fun positive activity for young people. The halls of Copley High School will be transformed into a frightening place; young people perform a variety of roles including makeup artists, sound, lighting and special effects technicians, and actors. It has always been a rewarding experience for participants.

Planning meetings have been scheduled; dates are online at www.copley-fairlawnhchy.org. Set up for the event takes many hours and begins on Friday, October 21 after school and will last late into the night. All meetings as well as set-up will be adult supervised. To keep informed, join the "Haunted Halls Staff 2011" Facebook group.

Many adult volunteers are needed during the Haunted Halls event to serve as escorts and provide security. Your help is needed! Please consider giving a few hours of your time that evening. Adults with creative talents are certainly welcome as well. This is a great opportunity for parents to work together with their teens.

This event is not school-sponsored but is supported by Copley-Fairlawn City School District administration.
